Oracle Partners Introduce First Oracle Accelerate Solutions for Oracle Fusion Applications

The Associated Press

Oracle (NASDAQ: ORCL)

News Facts
With rising demand for next-generation Oracle Fusion Applications across organizations of all sizes, Oracle today announced that Oracle Partners have developed the first Oracle Accelerate solutions for Oracle Fusion Human Capital Management (HCM), enabling midsize organizations to quickly and easily adopt modern solutions for growing and managing their business. Oracle Accelerate is Oracle's partner-driven approach to providing simple-to-deploy, fast time-to-benefit solutions for midsize organizations. Oracle Accelerate solutions offer industry-specific applications, implemented rapidly using Oracle Business Accelerators cloud-based rapid implementation tools and delivered with the proven expertise of a global network of skilled partners via Oracle PartnerNetwork (OPN). Fifteen partners created 22 new industry- and geography-specific Oracle Accelerate solutions over the past six months, with solutions spanning the range of Oracle Applications, including the Oracle E-Business Suite, Oracle's JD Edwards EnterpriseOne, Oracle CRM, Oracle Hyperion Performance Management Applications and Oracle Fusion HCM.
New Oracle Accelerate Solutions Empower Midsize Organizations to Leverage Modern, Enterprise-Class Applications
To meet demand for enterprise grade applications for midsize organizations, Oracle partners continue to develop new solutions that streamline the implementation and deployment of Oracle Applications, including the next generation Oracle Fusion Applications. With industry-standard Oracle Applications available in a variety of deployment options, including cloud, on-premise, hosted and hybrid, midsize organizations are empowered to quickly adopt solutions to streamline operations and grow their business. Oracle Accelerate solution providers are expanding their offerings to meet the diverse needs of growing organizations, delivering the first Oracle Accelerate solutions across product lines and industries: As businesses of all sizes strive to effectively leverage and nurture talent, Oracle Partners Cognizant Technology Solutions, Drivestream Inc., Infosys Limited and KPMG LLP have developed the first Oracle Accelerate solutions for Oracle Fusion HCM. The new solutions, tailored for North America-based companies, will enable midsize organizations in the financial services and professional services industries to rapidly adopt innovative, strategic human capital management. With pharmaceutical manufacturing thriving in China, APAC partner HAND Enterprise Solutions Company Limited created the first Oracle Accelerate solutions for the Oracle E-Business Suite and Oracle CRM that address the requirements of the pharmaceutical industry. To support demand for easy-to-deploy enterprise grade applications globally, Oracle

partners developed new solutions tailored for geographical regions: APAC partner Chain-Sys (India) Private Limited developed its first Oracle Accelerate solutions, with five solution offerings for the Oracle E-Business Suite across the automotive, industrial manufacturing, professional services, travel and transportation, and utilities industries. EMEA partners, including new Oracle Accelerate partner Pr?ject (EU) Limited, created nine new solutions for midsize companies in Belgium, France, Italy, the Netherlands, Portugal and the United Kingdom.

Supporting Quotes

"Demand for Oracle Fusion HCM is strong, particularly among midsize businesses eager to standardize on enterprise grade applications to help grow their business," said John Doel, Principal Advisory Services, KPMG LLP. "Our packaged rapid-implementation solutions for Oracle Fusion HCM will enable growing businesses to capitalize on the power of enterprise-class HR right away." "As the cloud becomes more popular, we find offering a choice in deployment options is key to helping midsize companies select, implement and adopt enterprise technology," said Tarang Puranik, AVP Oracle Head - RCL, Infosys Ltd. "By offering a rapid deployment of Oracle Fusion Applications in the cloud, we're meeting an important market need." "Oracle Accelerate provides a powerful vehicle to deliver leading applications to a broad range of midsize businesses across industries. We are thrilled to join the program and work with Oracle to create solutions to help growing businesses in India leverage the Oracle E-Business Suite," said Murugiah Shanmugam, Vice President, Chain-Sys (India) Private Limited. "With structured parameters and defined best practices to ensure speedy, successful implementations, the Oracle Accelerate program enables us to expand our client roster into emerging businesses." "For growing organizations, laying a technology foundation is a strategic decision that can help advance business success and increase industry momentum," said Steve Cox, vice president, Oracle Accelerate for Midsize Companies. "With new Oracle Accelerate solutions across geographies, industries and product lines, Oracle Partners are empowering midsize businesses to adopt these new technologies quickly and with little risk."
