SilverSun Technologies Announces Acquisition of Sage Business Accounts of Software Generation

The Associated Press

SilverSu n Technol ogies, Inc. (OTCBB: SSNT) (OTCQB: SSNT), a company engaged in delivering transformational business technology solutions and services, today announced that its wholly owned subsidiary, SWK Technologies, Inc., has completed the acquisition of the Sage business partner accounts of Colleyville, Texas-based SGEN, LLC (d/b/a Software Generation); and has retained several of its personnel, who will operate out of SWK's new regional office in Dallas, Texas.

Commenting on the sale of client accounts to SWK, Stephen Morin of SGEN, LLC stated, "SWK provides Software Generation's clients with the best options for the future, and it ensures continuing support at the levels that have made Software Generation the go-to company for Sage Pro support."

Mark Meller, Chairman, President and CEO of SilverSun, stated, "We are very pleased to welcome Software Generation's Sage business accounts to SWK's valued customer base, and look forward to providing them with the same superior level of service and attention that they came to expect from Software Generation. This acquisition allows SWK to continue to expand our growing national Sage practice in Texas, to add Sage Pro and Sage 300 ERP to our portfolio of products, and to provide enhanced support to our ERP Alliance partners."

"This is the second acquisition we have closed in 2013. There is more to come. With acquisitions serving a as key driver of SilverSun's national expansion strategy, we expect to remain very busy qualifying and pursuing opportunities as the year unfolds," concluded Meller.

About SGEN, LLC dba Software Generation Software Generation specializes in the installation and modification of accounting and related business applications using Microsoft Visual Studio, Visual FoxPro and SQL Server database products. Software Generation is a Sage Partner, certified in Sage Pro, Sage 300 ERP, Sage CRM and Sage ERP X3. Software Generation also develops custom database systems and has developed custom systems for employee scheduling, skill matching, travel expense reduction, warranty tracking, financial and performance reporting.
