

Practice Guide: Water and Steam

ISPE, a global not-for-profit association of more than 23,000 pharmaceutical manufacturing professionals, has released its Good Practice Guide: Commissioning and Qualification of Pharmaceutical Water and Steam Systems. The goal of this guide is to increase understanding of direct impact water and steam systems in the pharmaceutical and biotechnology industries. It's available for sale (\$145 for members and \$215 for non-members) by calling 813-960-2105 or e-mailing customerservice@ispe.org.
