

'Magnetic' Data: Separator Brochure

Eriez, Erie, PA, is offering a free brochure on its new line of ProGrade magnetic separators. The line includes plates, grates, traps, and tubes, which have application in the food, chemical, and pharmaceutical as well as other processing industries. ProGrade magnets and assemblies are available with three different degrees of magnetic strength. The brochure offers detailed information on the three series: ProGrade Ceramic, ProGrade Rare Earth, and ProGrade Xtreme. The ProGrade Ceramic targets the removal of medium to large ferrous contamination, the ProGrade Rare Earth targets small, fine, weakly magnetic ferrous contamination, and the ProGrade Xtreme promises the ultimate in process purity.

Information: 888-300-3743
