SELECTION NOTES: Metering Pumps

Neptune Chemical Pump Co. Inc., Lansdale, PA, has published Bulletin PZ-07, a brochure on its line of Tacmina PZ Series electronic metering pumps. The pumps are appropriate for applications requiring accurate and reliable injection of a variety of liquids including chemicals, nutrients, and disinfectants. The brochure allows users to select the best pump for their application based on capacity, pressure, and viscosity tables. Information: **pump@neptune1.com**.
