USEFUL GUIDE: DAS Market Info

Omega Engineering Inc., Stamford, CT, has more than 190 pages of information and product data for the DAS market featured in a new catalog. The company presents cutting-edge technology about USB data acquisition, portable data loggers, wireless devices, and plug-in boards. A user-friendly index facilitates product searches. Readers can request a free print copy or download a PDF version by going to **www.omega.com/literature**.
