

## Design Guide: Air Systems

The latest compressed air system design information is inside a new guide called "Designing Your Compressed Air System" from Kaeser Compressors Inc., Fredericksburg, VA. It takes you step-by-step through the process of determining and creating the system you need. It also contains data on the hot trends in air system management and controls as well as a compressed air glossary and conversion formulas. More information is available by calling 800-777-7873 or visiting [www.kaeser.com](http://www.kaeser.com).
