## Free CD: Multiphysics

A complimentary copy of a user presentation CD on multiphysics is available from Comsol Inc., Burlington, MA, at [www.comsol.com/dwconfcd](http://www.comsol.com/dwconfcd). It contains more than 250 simulation projects published by those attending Comsol conferences in Boston and Grenoble during the fall. The CD includes presentation slides, full papers, and Comsol model files. Topics include fluid dynamics, heat transfer, microfluidics, porous media flow, process and chemical engineering, reaction engineering, microwave engineering, and many others.
