

## Pressure Gauge with Flutter Protection

The Type 1279 Duragauge pressure gauge is available with PLUS! protection for installations subject to high vibration and pulsation. Durable and consistent, the unit efficiently quiets pointer flutter without the need for traditional liquid fill. The pressure gauges are certified at  $\pm 0.50\%$  full-scale accuracy and are available in ranges from vacuum through 100,000 psi. Metric ranges are also available.
