DIAPHRAGM PUMP

Booth 1929. The EXPert (EXP) Diaphragm Pump line is available in seven different materials, and four different sizes. The pumps are used in the process industry, and are made to pump corrosive and abrasive materials. The pump also features a stall-free, ice-free valve design, and a bolt on the valve, which facilitates repairs.

Ingersoll-Rand ARO Fluid Products, Bryan, OH 419-633-1714
