

Flow Regulator

The Smartflow Flow Regulator is a manually adjustable needle valve, flow meter and temperature gauge assembly in one package that is available in three connection sizes: $\frac{1}{4}$ in., $\frac{3}{8}$ in. or $\frac{1}{2}$ in. inlet, all with $\frac{3}{8}$ in. outlet. Flow ranges are available in 0-1.5, 0-2.5 and 0-8 gallons per minute and 10 or 30 liters per minute. Flow rate accuracy is ± 10 percent. Temperature gauge accuracy is ± 2 percent.
