

Cleanroom Vacuum

Booth 1031 - Available with optional Safe-Pak technology - a revolutionary new safe change system for ultra-secure hazardous material removal - the compact IVT 1000 CR Cleanroom Vacuum addresses the cleanliness and hygiene standards required in cleanrooms in a compact machine without sacrificing ease-of-use or worker comfort. Equipped with an ULPA exhaust filter as standard, it is quiet, compact, and easy to maneuver and, like the trolley and all accessories, is autoclaveable for simple and convenient cleaning.
