## **Straight Flow Tube**

The Model 600-9 SAN provides a completely unobstructed straight through flow path for liquids or gases and is ideal for sanitary CIP and SIP applications. Typical application is for the food & beverage and pharmaceutical industries. The accuracy of the meter is +.5 percent of full scale or 2.0 percent of reading - whichever is better. The flow range is 100:1 typical - optional 1000:1 or greater. Standard wetted materials are 316L SS. Standard sizes are ¼ in. to 12 in.
