

Time to Examine Arc Flash Safety

Five to 10 arc flash explosions occur in electrical equipment every day in the U.S., according to a report from CapSchell Inc., a Chicago-based research and consulting firm that specializes in preventing workplace injuries and deaths. Square D, best known in the U.S. as the flagship brand for Schneider Electric's North American operating division in Palatine, IL, is offering the advice-filled report as a free download at www.squared.com [1] and www.squared-services.com [2].
