Tip of the Month (1070)

Warning Focuses on Unsafe Speech

Be wary of six unsafe and potentially costly phrases in the workplace. The phrases are: We don't have time; I know a shortcut; I think this is the right way to do it; Regulations don't change that often; We'll fix it later; It's not in the budget. This safety advice comes from Benjamin Mangan, president of Mancomm and American Safety Training, partner companies that develop OSHA compliance products and safety training.
