AGREEMENT: Flowserve & Wood

Flowserve Corp., a global leader in the fluid motion and control industry, and Wood Group Light Industrial Turbines Division, part of the Gas Turbine Services division of John Wood Group PLC, have announced a cooperative agreement to establish a compressor dry gas seal retrofit program. This agreement will provide for a wide range of compressor overhaul and mechanical seal upgrade solutions to the oil and gas marketplace. It represents a one-stop shop for installation, commissioning, repair, service, and related auxiliary equipment.
