

Plex Online Demo Available for General Manufacturers and Metalforming Manufacturers at Free Webinars

The Associated Press

Plex Systems, Inc., provider of the No. 1 rated ERP software for manufacturers (http://www.plex.com/modules/software_areas.asp) , today announced live demonstrations of Plex Online's comprehensive ERP solution for general manufacturers on Thursday, September 9, 2010 from 2-3 p.m. ET and for Metalforming manufacturers on Thursday, September 23, 2010 from 2-3 p.m. ET.

These industry-specific events offer manufacturers an opportunity to explore Plex Online as they would use it in their day-to-day operations. Participants will see how Plex Online tracks lot properties while optimizing and improving mission-critical business processes such as inventory control and traceability, quality assurance, tooling management, and OEE tracking and trend analysis. Each webinar is tailored to the particular manufacturing audience and will highlight additional features unique to the metalforming and general manufacturing communities.
