

Dunbar Products, LLC. Selects abas ERP From abas-USA for Their Integrated ERP Solution

The Associated Press

abas-USA announced today that Dunbar Products, LLC. has chosen abas Business Software as its Enterprise Resource Planning ("ERP") software for the future.

Dunbar Products, LLC. is a seller and distributor of high quality heat shrinkable tubing and insulation. In an effort to improve upon current business systems, move forward with ISO 9001 certification, and boost levels of customer satisfaction, Dunbar reviewed several ERP software providers, ultimately choosing abas-USA for their ERP software solution. Several reasons behind Dunbar's choice included: ease of use and intuitiveness, a customized training package, inclusive manufacturing software, a Linux platform, and overall best fit for their unique business needs.

Steven Witherington, Project Manager at Dunbar Products, LLC., said, "Dunbar Products, LLC. strives to provide our customers with the highest level of customer service. With the implementation of this new ERP system, Dunbar hopes to not only increase internal efficiencies, but also take customer satisfaction to even greater heights. Dunbar looks forward to the implementation and integration of the abas ERP solution and a lasting partnership with abas-USA."

Alan Salton, President of abas-USA, added, "Dunbar's requirements were an ideal fit for abas ERP, from purchasing to lot management to work orders, shipping and quality, it was a precise process."
