

Tempsens Instruments Selects Epicor ERP to Streamline Processes

The Associated Press

Epicor Software Corporation, a global leader in business software solutions for manufacturing, distribution, retail and services organizations, today announced that Tempsens Instruments, a leading manufacturer of temperature sensors and accessories in India, has selected the Epicor next-generation enterprise resource planning (ERP) solution. With the new software in place, Tempsens Instruments wants to streamline and automate its manufacturing processes in order to improve operational efficiency. The Epicor solution will be implemented by Epicor Authorized Partner, CorporateServe Solutions Pvt. Ltd.

With world-class manufacturing facilities in India, Germany and China, Tempsens Instruments focuses on supplying the highest quality products delivered promptly at very competitive prices. By building on its outstanding reputation, Tempsens Instruments aims to become a world leader in the manufacturing of temperature sensors and accessories.

"Our objective is to continue providing outstanding thermal engineering products and take our customer relationships to the next level primarily by streamlining processes through standardization and automation," said Vinay Rathi, director for Tempsens Instruments. "Also we aim to upgrade as well as simplify processes at our extensive facility in Udaipur. This will represent a significant step towards achieving further operational efficiency and capacity. We believe that Epicor will assist us in our journey to become one of the leading temperature sensor manufacturers globally."

CorporateServe Solutions Pvt. Ltd (CorporateServe), an authorized Epicor channel partner, is a decade-old ERP services company with headquarters in Gurgaon, India. The strength of CorporateServe lies in its focused approach towards ERP business. "Epicor offers advanced, next-generation ERP solutions that help organizations become more competitive," said Vinay Vohra, chief executive officer for CorporateServe. "We are proud to be a part of this project and our dynamic team of ERP specialists will ensure the successful implementation of Epicor ERP for Tempsens Instruments."

"Epicor ERP is an industry-leading manufacturing solution offering extensive functionality, proven ease of use and the latest technology, which will enable Tempsens Instruments to achieve standardization, scalability and operational efficiency," said Vineet Fogat, country manager for Epicor India. "Our partner CorporateServe Solutions has an excellent track record of successful ERP implementations and will drive Tempsens Instruments' roll-out of Epicor ERP to
