

SilverSun Technologies Announces Sales of Its Subsidiary's MAPADOC(TM) EDI Solution Continue at Record Pace

The Associated Press

SilverSun Technologies, Inc. (OTCBB: SSNT) (OTCQB: SSNT), a company engaged in delivering transformational business technology solutions and services, today announced that its principal operating subsidiary, SWK Technologies, finished 2012 with a record number of sales of its MAPADOC? EDI (electronic data interchange) solution. The Company sold 60 new licenses in 2012.

A principal driver of these new sales was SWK's partnership with SPS Commerce (NASDAQ: SPSC), a leading provider of on-demand supply chain management solutions. SPS Commerce successfully sold dozens of MAPADOC? deployments in 2012.

MAPADOC? is a fully integrated, easy to use electronic data interchange (EDI) software solution that dramatically cuts data entry time and costs by eliminating duplicate entries, improves communication with trading partners, integrates seamlessly with Sage 100 ERP, Sage 500 ERP, and Sage ERP X3, and reduces mapping time by over 75% by allowing end-users to quickly and easily create their own maps for integrated documents.

Jeffrey D. Roth, CEO of SWK Technologies, stated, "Our MAPADOC? business has grown 130% over the last four years, and a large portion of this growth is attributable to our partnership with SPS Commerce. We now have over 350 customers nationwide using MAPADOC? to build their trading partner relationships and manage and fulfill orders."

"SWK Technologies has outperformed our customer's expectations at each implementation," said David Novak, Executive Vice President of Business Development at SPS Commerce. "MAPADOC? allows SPS customers to connect our supply chain network with their internal ERP system to power their relationships with retailers, vendors and 3PLs. We have hundreds of customers using the Sage 100, 500 and X3 ERP solutions, and are pleased to offer them the proven MAPADOC? solution to enhance their use of our cloud services."

Novak continued, "Our partnership with SWK helps retail organizations realize more from their supply chain relationships. As a result, we are investigating new and exciting ways in which our organizations can cooperate for the betterment of both our organizations and our customers."

Mark Meller, Chairman and CEO of SilverSun Technologies, commented, "We

continue to explore new markets for our line of proprietary software solutions, including MAPADOC?. For example, we are actively engaged in exploring the launch of MAPADOC? in Europe, which will expand our potential market substantially. We look forward to making announcements in the near future regarding these potentially exciting developments."

About SPS Commerce SPS Commerce is a leading provider of on-demand supply chain management solutions and the Retail Universe community, providing integration, collaboration, connectivity, visibility and data analytics to thousands of customers worldwide. We deliver our solutions over the Internet using a Software-as-a-Service model to improve the way the retail supply chain community of suppliers, retailers, distributors and other customers build their trading partner relationships and manage and fulfill orders. Our Retail Universe hosts profiles of thousands of retail supply chain members, and enables retailers, suppliers and 3PLs to find, connect and form new business partnerships based on product or integration requirements. Our platform features pre-built integrations used by current and new customers alike, spanning 3,000 order management models across more than 1,500 retailers, grocers and distributors, as well as integrations to over 100 accounting, warehouse management, enterprise resource planning, and packing and shipping applications. More than 50,000 customers across more than 40 countries have used our platform, making it one of the largest trading partner integration centers.
