Opposition to Frack Sand Mine Near Arcadia

ARCADIA, Wis. (AP) — Neighbors are opposed to a proposed frack sand mine near Arcadia in Trempealeau (TREMP'-eh-loh) County.

AllEnergy Silica needs approval from the town and county before beginning mining operations on 800 acres. About 60 residents who attended a meeting this week criticized the plan and expressed concern about health and environmental risks.

The <u>Winona Daily News</u> [1] says the Arcadia town board could vote on the proposal Aug. 5.
