

## **Black Hills Corp. Buys Pipeline In WY**

Associated Press

RAPID CITY, S.D. (AP) — Black Hills Corp. says it's buying 400 miles of natural gas pipeline from MGTC Inc., a Wyoming public gas utility and an indirect, wholly owned subsidiary of Anadarko Petroleum Corp.

Rapid City-based Black Hills will pay \$6 million for the system that serves about 400 customers in northeast Wyoming.

It will operate the line as a separate division of Cheyenne Light, Fuel & Power, the corporation's electric and natural gas utility in Cheyenne, Wyo., under the name Black Hills Energy.
