This special Energy Links podcast features interviews recorded in the field, in Nyanza Province in Western Kenya, with savings group members who have purchased solar lamps. The lamps have been sold by one of the entrepreneur franchisees working for CARE to train savings groups - Leonida Bironga. Leonida confidently thinks she can sell a thousand lamps a month if she gets the supply, and that is about to happen. The future for village life looks much brighter all of a sudden in Western Kenya!
