

## Volumetric and Gravimetric Feeders

The Mechatron LC feeder is designed for feeding dry minor ingredients at rates as low as 0.002 cubic feet per hour. It includes AC drive packages and a Coni-Flex flexible conical hopper. It also has the ability to be disassembled, cleaned, reconfigured, and serviced from the non-process side of the feeder. It's available in both volumetric and gravimetric models with accuracies up to  $\pm 1/4\%$  of feed rate setpoint at 2 sigma.
