Controller Can Handle 'Weighty' Issues

Whether you're dealing with feed, food, or concrete, the Model 788 programmable weight indicator promises dependable control over your batching. Featuring a full alphanumeric keypad, 320 x 240 pixel resolution, and backlit LCD graphics display, it can be used indoors or outdoors in applications as varied as molasses or asphalt. The controller features single-speed, two-speed, or chatter gate controls, single- or multi-drop discharge, and static or dynamic trim to ensure accurate delivery. The unit has up to eight analog or 32 digital scales, eight slots for scale input, optional I/O, and special function cards. The enclosure, which can be opened using a Phillipshead screwdriver, provides quick access to internal components.
