## Ultrasonic Level Transmitter

The LVU800 Series general-purpose loop-powered two-wire ultrasonic transmitter with NEMA 4X enclosure provides non-contact level measurement up to 10 m (32 ft) and is suitable for challenging ultra-pure, corrosive, or waste liquids. Featuring quick and simple set-up with pushbutton calibration, the transmitter is broadly selected for atmospheric bulk storage, day tank, and waste sump applications. Media examples include wastewater and sodium hydroxide. The unit is also CE Compliant. Popular models include the LVU816, LVU826, and LVU832. Prices start at \$835
