

# Infrared Thermometer With Circle/Dot Laser Sighting

The OSXL450 non-contact thermometer features a laser sighting system that defines the target for point-and-shoot measurement of temperatures from -20 to +320°C (-4 to +608°F). The thermometers are convenient to use, with backlit display for night use, auto power-off, and a handy wrist strap and batteries. They're CE compliant and cost \$59.
