

Lightest & Brightest In Contemporary Safety Eyewear

According to [Gateway Safety](#) [1], its Luminary™ safety eyewear has the look, fit and feel of quality eye protection that is easy to wear all day, every day. Created for style and comfort, as well as safety, says the company, this eye protection further provides:

- An ultra-lightweight frame in a contemporary design.
- Soft flexible temples to relieve pressure behind the ears, thus enhancing comfort.
- The capacity to easily fit any face size.
- An integrated brow guard and wrap-around design for extra coverage against workplace hazards.
- A standard anti-scratch coating on all versions for durability and clear vision.
- Unique translucent temple insets that match lens color.
- A large one-piece polycarbonate lens.
- Availability with a variety of lens colors.
- A weight of 4/5 of an ounce.
