Cleanroom Robots Reach Out

DENSO's new VM series of six-axis articulated, class 100 cleanroom robots feature:

- Reaches of 3.28' to 4.27'
- Standard cycle times of 0.89 to 0.95 sec.
- Repeatability from $\pm 0.00196''$ to $\pm 0.00275''$.
- A payload capacity of 22 lb.
- High maximum allowable moments of inertia, approximately 2.5 times greater than conventional robots.
