

Strainer Configurations Galore

Conval is now offering a variety of in-line Y-pattern, angle, and T-pattern strainer configurations. Features include:

- An easy to clean Clampseal® Strainer, available alone, with blowoff fitting, or with Clampseal blowoff valve in 1/2" to 4" sizes from ANSI/ASME 600 to 4500 pressure class.
- Various materials of construction, including SA 105, SA 182-F22, SSA 182-F91, and SA 182-F316. Standard strainer hole sizes are 1/32", 3/64", 1/16", 3/32", and 1/8".
- Optional mesh-lined strainer elements.
