

Increased Compressor Air Delivery Is No FAD

Atlas Copco Compressors has released its redesigned small oil-injected screw compressor range — the GA 5-11/GA 5-15 kW Variable Speed Drive (VSD). Features of the compressors include:

- Eight percent increase in free air delivery (FAD).
- Noise levels as low as 60 decibels.
- New VSD voltage variants.
- Extended operating range.
- Enhanced Elektronikon® controller.
- New energy saver cycles on both fan and dryer.
- Remote online monitoring.
