

Connect Pumps to Virtually any Container

The new DrumQuik[®] 3-Port Universal Dispensing Adaptor (UDA) from Colder Products Company enable pumps to be connected to virtually any container. The UDA facilitates the connection and disconnection of multiple chemical lines while minimizing chemical exposure and maintaining workplace safety. Other features include:

- 3/4-inch NPT male thread that will mate with common drum bung plugs or bottle caps with a female 3/4-inch thread.
- Liquid removal, venting, blanket gas and recirculation capabilities.
- Optional locking nut for bulkhead mounting applications.
- Compatibility with Colder quick disconnect couplings.
- Food-grade virgin polypropylene material construction.
