

## Digital, Crane, Precision & Platform Scales

A selection of digital, crane, precision weighing and platform scales manufactured by Kern are now available through Tovatech. Calibration certificates are also available upon request. Scale features include:

- Digital counting resolutions from 30,000 to 300,000 points.
- Lifting requirements up to 22,000 pounds on crane scales.
- LED displays on select models.
- Precision weighing on Kern's 572, 573 and 440 industrial bench scales.
- Movable display devices, piece-counting capabilities, an animal-weighing program, IP65 protection against dust and water and battery packs to support increased mobility.
