

## Pure & Secure Container Seals

AdvantaPure's new line of BioClosure systems are container closures designed for clean applications. The container closures:

- Are suitable for repeated or single use.
- Work with flexible container systems, laboratory bottles and apparatus, and sampling and storage receptacles of glass, plastics, or metal.
- Are manufactured and packaged in a Class 7, ISO-certified clean room from USP Class VI, platinum-cured silicone elastomer.
- Can be used with temperatures ranging from -100°F to 400°F.
- Come in various styles with stoppers, caps, inserts for true unions and GL45s.
- Use standard stopper sizes of 2 through 12.
