

Feeder, Vibrator & Magnetic Equipment Rebuild Service

Eriez recently announced the launch of its 5-Star Service™, designed to provide the information, resources, parts and service required to rebuild coolant cleaners, metal detectors, SafeHold® lift magnets, model A-C feeders, high deflection and high speed feeders, mechanical feeders and vibrators. From the service section of Eriez's website, you can access:

- Parts lists, some with detailed schematic of the equipment for easier sourcing and identification.
- Installation and Operational Manuals (IOMs).
- Details of the Eriez 5-Star Service Center, which is equipped with the machining, fabricating and welding capabilities necessary to remanufacture the most complex systems.
