

Desiccant Dryer for Small Applications

Kaeser's wall-mounted desiccant dryer—the KADW—now provides capacities from 7-50 scfm at 100 psig. The dryers feature:

- Precise, consistent dew-points as low as -100°F.
- Highly accurate solid state timer.
- A counterflow design.
- Ready-to-mount cabinets.
- Easy connection to an optional Kaeser oil removal (KOR) prefilter and the Kaeser particulate filter (KPF) afterfilter.
