

Sanitary Teflon Rupture Disk

BPS Inc. has released the first scored Teflon[®] rupture disk on the market. Known as the TSD[™] (Teflon[®] Scored Disk), it:

- Is available in 1" to 3" sizes.
- Has rated burst pressures of 10 to 50 psig.
- Is failsafe — if damaged or installed incorrectly, it will always rupture *at or below* rated burst pressure.
- Can be installed between ANSI raised face pipe flanges, a plastic union holder, or custom holders at user request.
- Negates the need for a gasket.
- Is suitable for food and pharmaceutical applications.

For more information, call (918) 258-7554.
