

Wireless Sensors & Systems

Detcon is showcasing its new state-of-the-art SmartWireless™ products with a wide range of automation applications at OTC in Houston next month. Included in the display will be:

- The advanced wireless cordless system, which can be used with numerous gas detection sensors as well as a wide range of industrial automation products, process measurement devices, remote data acquisition systems, and audio-visual alarm stations.
- The "environmentally bulletproof" model 700 gas detection sensor.
- The new MCX-32 "auto-configurable" multi-channel integrated control system.
