

Custom-Manufactured Material Handling

Now available from Gough Econ is a variety of conveyor belt designs and styles, engineered and custom-manufactured to meet exact customer material-handling requirements in moving product. Your options include:

- Selection from flat slider bed, incline, cleated or troughed belts and more.
- A range of styles — from flat to flighted — with inclines up to 90°.
- Precise conformity to specific space requirements.
- A thorough analysis of the material being handled, such as product size, where the product is being moved, etc.
- The flexibility to choose motor type, drive and controls; the length, height and angle of the conveyor; the type of leg supports; and other similar variables.
- Accommodations for food, chemical and industrial applications.
