

# Modular Conveyors for Clean Rooms

DynaCon modular conveyors consist of modules that connect and reconnect to form conveyor systems of varying lengths and profiles. The conveyors feature:

- Federal Standard 209D Class 1 (ISO Class 3) ratings compliance.
- Energy-efficient brushless DC motors that do not emit carbon like comparable brushed motors.
- Maintenance-free gearboxes, designed to meet [clean room conveyor standards](#) [1].
- FDA-approved plastic link style belting for dust-free environments.
- Self-lubricating plastic link style belting.
- Optional ionizing blowers and bars.
- Optional HEPA tunnel, consisting of a HEPA filter and enclosure.
