

# Sanitary Gravity Flow Sifters

Great Western Mfg. introduces its sanitary QA Tru-Balance Series gravity flow sifters as providing the latest innovations for precision grading, fines removal and product quality control sifting. The series also boasts:

- 3 to 9 sieves that are adaptable to a range of products, capacities, number of separations and screen sizes.
- A flow sieve arrangement that provides large screen areas in a compact floor area.
- The ability to open the sifter, completely remove the sieves, and maintain and reassemble everything in minutes, all without special tools.
- A stainless steel sieve and product contact zone, which allows cleaning to be accomplished with dry brushing, air cleaning, water washdown or steam cleaning.
- The flexibility to customize the flow sieve arrangement to suit your installation requirements.
