

## Shipping Labels for Dangerous Goods

Labelmaster® has a new “Y” marking for shipping limited quantities of dangerous goods by air. The use of this label will become mandatory on January 1st, 2011. The labels:

- Measure 100mm × 100mm (standard size), 50mm × 50mm for when the package is too small to hold the full-size label and 273mm × 273mm for use on ocean containers.
- Have a strong adhesion to corrugated boxes and outstanding chemical and abrasion resistance.
- Are constructed using 3.4-mm flexible vinyl.
