

Provide a Safer, Cleaner Workplace

Kafko Intl. has designed a new line of eco-friendly absorbent pads, rolls and socks — Oil Eater Naturals — to provide a safer and cleaner workplace, while helping users meet OSHA and EPA requirements. Features include:

- The power to absorb up to 20 percent more than melt-blown polypropylene pads.
- Availability of oil-only pads and rolls to soak up oil and repel water; universal pads and rolls to soak up oil, water and other liquids; or absorbent socks to control larger spills and protect drains.
- A woven construction of natural plant by-products.
- Your choice of 16- by 18-inch pads or 28-inch by 150-foot rolls.
- Ideal suitability for production lines, industrial and maintenance facility floors, loading docks, paint shop floors and more.
