This Skid System Comes Loaded

Now available for ProSeries® M metering pumps, Blue-White Industries' CHEM-FEED® skid systems incorporate:

- A self-filling calibration cylinder.
- An exclusive flow indicator.
- Removable drip containment trays.
- A check valve to protect the operator from backflow during routine maintenance.
- Heavy-duty, chemical-resistant, powder-coated 6061-T6 aluminum, welded joint construction.
- Dual side inlets to enable connection of multiple skids to the same inlet.
- Easy access to wiring components from the rear of the system.
- Single or dual pump systems.
- Floor or wall mounting, in addition to stainless steel mounting pads.
- Custom universal mounting blocks and pre-assembled component assemblies that are easily stocked and field replaceable into pre-machined mounting slots.
