

A Prime Line of Pumps

Gorman-Rupp has designed its Prime Aire Plus™ priming-assisted pumps to provide you with the ultimate in pumping performance, such as increased head and flow, and other enhanced maintenance features. Prime Aire Plus pumps deliver:

- Flows up to 4,950 GPM and heads to 475 feet.
- Up to 8-inch flanged discharge sizes.
- Suitability for clear liquids and liquids containing large solids.
- The flexibility to fit other pumping installations.
- Availability with the latest EPA Tier-compliant engines or premium-efficiency electric motors.
