

## Easy-to-Use Hydraulic Pressure Generator

The P100 gauge and hand-held pump offer pressure calibration in an easy-to-use design with ranges up to 1000 bar. Additional features include:

- Accuracy of  $\pm 0.20$  percent of full scale or  $\pm 0.05$  percent of full scale.
- Hydraulic ranges up to 1,000 bar (15000 PSI).
- Fine adjustment Vernier.
- Peak function (positive and negative).
- Pressure release value.
- Easy-grip handle, spring loaded, scissor action.
- Selectable engineering units in Bar, Mpa, Kpa, Psi, and mbar.
- Calibration certification included.
