

## Change Screens Quickly & Easily

### Sifter Parts &

Service manufactures the CS-1 stacked-deck gyratory sifter to facilitate quick screen changeouts within minutes. Other features include:

- From 2 to 4 separations of dry product from 1/4 inches down to 400 mesh.
- A capacity of 50,000 pounds per hour.
- Installation with the use of standard hand tools.
- The power to save time and labor.
- No need for noxious glue, drying time or a tensioning machine.
- Suitability for when a screen needs replacement due to a tear in the screen cloth, a change in mesh specifications or when switching from one product to another.
