

Flowmeters Show off New Plastic Body

OMEGA Engineering's Series full-bore electromagnetic flowmeter not only boasts a new plastic body, battery power and corrosion resistance, but this magmeter also offers:

- Unobstructed flow, minimizing flow disturbances and straight-pipe requirements.
- The power to track flow rate and total flow in usage monitoring applications.
- A built-in rate and total indicator.
- No moving parts.
- Ideal suitability for the chemical and water industries, but also for wells, industrial wastewater, heap leach mining discharge, cooling tower deduct, turf, landscape and other water reclamation applications.
