

Wet & Wet-Differential Pressure Transmitters

Omega's PX5200 rangeable wet and wet-differential pressure transmitters are CE compliant and compact. According to the company, the transmitters feature:

- Backlit display for easy reading.
- Stainless steel, FKM and ceramic wetted parts.
- Flow measurement totalization and square root extraction function.
- Program lock function.
- Quick ranging design with internal push-buttons.
- Ideal for flow and tank level applications where low dP measurements are required.
