

Compact Vacuum Conveying & Pumping

Volkmann has unveiled the VS200-F1 vacuum conveyor and pump in response to demand for an ultra-low profile to vacuum convey small volumes. According to the company, the high-performance VS200-F1 additionally delivers:

- The MX 360 vacuum pump that is capable of vacuum levels as low as 27 inHg vacuum, allowing for lean, dense or plug flow conditions.
- Conveying capacities up to 500 pounds/hour.
- The company's quick-release QX-style filter.
- A unique full-bore discharge valve that is free from operating parts within the product stream.
- Accommodations for granular products.
- An 8-inch (dia.) full-bore body with 16-inch overall height.
- 316L stainless steel construction to resist corrosion, as well as and full modularity.
- ATEX certification for use in explosion-proof areas.
